Saimaa, Puula, Kyyvesi and other magnificent lakes

Finland's largest lake, Lake Saimaa, the ruggedly beautiful Puula, the official provincial lake, Kyyvesi with its rich aquatic life and thousands of smaller lakes make Southern Savonia an ideal recreational destination. Here you can rest your eyes and soul in beautiful lake scenery. Come and experience the breathtaking archipelago of Saimaa, the rauks of Puula, the flood meadows and shingles of Kyyvesi and many other wonders of lake nature!

Have you already spotted a Saimaa ringed seal?

The Saimaa ringed seal is a subspecies of seal and one of the rarest seals, living only in Saimaa. This endearing and endangered seal spends most of its time in the water, but in spring, during the moulting season, it can be seen lying on the rocks along the shores of Saimaa. The seal's fur is recognisable by its unique ring patterns, and with a little luck you can see this rare creature in its natural habitat, for example on a seal cruise.

Head for the scenic routes

Embark on a journey to the most spectacular landscapes of southern Saimaa and to the stories of the past. Route 62, or the Lietvesi Scenic Road between Puumala and Anttola, takes you on a winding route through the beautiful scenery of Lake Saimaa. The road is also listed in Forbes' "5 Awesome Road Trips in Scandinavia and the Nordics". The Puumala Archipelago Road offers a 20-kilometre journey through the archipelago, passing through 11 islands. The Green Gold Culture Road takes you on a 400-kilometre journey through the heritage of the Southern Savonian swidden farmers, while the Great Savonian Museum Road opens a window on the region's rich history.

Saimaa UNESCO Global Geopark has many treasures

The Saimaa Geopark includes important geological sites, cultural attractions and unique hiking trails throughout the Saimaa region. In every corner of the area you will find landscapes and places shaped by the Ice Age, idyllic villages and towns, and historic cultural sites. When you visit them, the story of how Lake Saimaa came to exist opens up to you in a whole new way.

The nature trails of the Mikkeli region lead you into the lakeland nature that enchants you in all seasons. You can explore the trails on your own or with a local guide (see page 17). Along most of the trails there are huts and wilderness lodges where adventurers can rest and stay overnight, enjoying the silence of nature.

The magic of winter in the Mikkeli region

Saimaa and the Mikkeli region offer unforgettable winter holiday experiences for all ages. Find the ingredients for your winter holiday from skiing, mountain biking, ice skating, ice fishing, winter swimming, snowshoeing or guided nature tours. You can also experience the magic of lakeland nature by zipping on the ice of Lake Saimaa on an electric snowmobile. You can enjoy all this, plus the starry sky, the northern lights and the crackling frost, in the midst of the most beautiful snow-covered landscapes.

Winter in the Mikkeli region also offers exciting moments and a tingling atmosphere. You can find it at horse races at Mikkeli Racecourse and at the Mikkelin Jukurit ice hockey games at Mikkeli Ice Hall. You can also find new energy at the many indoor sports facilities, whatever the weather. Welcome to Saimaa's winter to relax and recharge your batteries!

Onto the trail

The Mikkeli region has many well-maintained and well-lit trails for striding and gliding on skis. Is it time to head for the trails on frozen lakes, or is the well-lit exercise trail calling you? Or should you take a trip to the Otto Manninen Trail, a 34 km track in Kangasniemi? And it doesn't matter whether you prefer traditional or freestyle skiing – there are enough trails for both. Welcome to the trail – red cheeks are guaranteed!

Onto the ice

When the lakes and ponds in the Mikkeli region freeze over, you might be lucky enough to go skating and shooting pucks on natural ice. Sahanlahti Resort in Puumala and Lake Salajärvi in Juva often have ploughed skating trails when ice and snow conditions allow. Check the websites of local authorities and businesses for skating opportunities.

Into an icy bath

The Saimaa region is the place to go for a winter swim when the cold water beckons. In Mikkeli, for example, the Kyyhkylä Wellbeing Resort, Visulahti and Sauna Restaurant Kaihu also offer a hole in the ice when you book a sauna. Mäntyharju offers winter swimming in Veljesniemi and Kisaranta. You can also ask for an icy dip at Sahalahti Resort in Puumala.

Or how about staying warm and cosy indoors?

When the frost is biting and the wind is blowing, it's a pleasure to be warm indoors. Saimaa Stadiumi has a bouldering and wall-climbing area, a variety of courts for ball games, a gym and running tracks. There are fun things to do for all ages at the SuperCorner.

Rock paintings tell a story

The 5,000-year old rock paintings at Astuvansalmi form Finland's largest area of Stone Age rock art and one of the most important rock art sites in Northern Europe. Stone Age and early Metal Age artefacts have been found near them, both on land and in the water. In their well-preserved setting, the rock paintings form a mysterious and impressive collection. Boat trips and cruises to the rock paintings of Astuvansalmi are available.

The nearby Uittamonsalmi rock paintings as well as other rock paintings in the Saimaa Geopark area (e.g. Sarkaslampi in Juva and Haukkavuori and Puukonvuori in the watercourses of Mäntyharju) invite you on a fascinating journey back in time to the Stone Age.

The Rock Art Centre will open in Ristiina in the summer of 2025. The centre, which will be located in the Brahelinna Manor, old Colonel's lodge, in Ristiina (Brahelinnantie 54), will present the creation of rock art as part of European cultural heritage through the history of Saimaa, and will also provide an opportunity to learn about Georg Magnus Sprengtporten and other cultural heritage and history in Ristiina and Southern Savonia.

Visit Mikkeli consists of six municipalities with their own stories!

Hirvensalmi – life and more

In Hirvensalmi you can canoe through foaming rapids or paddle on open lakes that dazzle the eye with their beauty. Here you'll find unspoilt nature and a full range of holiday home services. The 127 lakes and 327 islands in the municipality offer countless opportunities for excursions, including Lakes Puula and Suonne with their clear waters, where you can find several designated landing places for canoeists and boaters.

Juva – joyful and surprising

Juva is the central point of Southern Savonia, with plenty to see and do all year round. Winter delights include cross-country skiing trails, a ski resort and the Sampola Water Sports Centre wits its guaranteed warm waters. In summer, the numerous and renovated nature and cycling trails, the rich cultural offerings and the gently lapping waves on the shores of Lake Saimaa are the key to the holiday atmosphere. Local food and organic products are valued – Juva is one of the most organic municipalities in Southern Savonia.

Kangasniemi – Puula is calling, can you hear the call?

Kangasniemi lies in the lap of Finland's southernmost wilderness lake, the large and clear Lake Puula. Idyllic waterways, unspoilt nature and a nature-conscious attitude are everywhere. Kangasniemi offers fantastic year-round recreational opportunities, a rich cultural life and a wide range of events that attract young people, adults and seniors alike. Kangasniemi is full of surprises.

Mikkeli – we are expecting you!

What's there to be shy about? Mikkeli is Finland's largest, most beautiful and most responsible municipality for holiday homes and a treasure trove of organic and local food. Mikkeli's famous marketplace is Finland's best and truly the beating heart of the city, home to the largest shopping centres and best specialty shops in the province. Mikkeli, the headquarters city of beautiful manor houses and charming gardens, offers events and activities for lovers of nature, history and city life of all ages. The fresh, clean flavours of local food and the many opportunities offered by the Lakeland nature are the crowning glory of a holiday. A warm welcome to Mikkeli!

Mäntyharju – renewal through union

Mäntyharju is a municipality of seasonal living, loved by many and an unforgettable experience on summer trips. Kuortti is the gateway to Southern Savonia, the Green Gold Cultural Route and the Lakeland start here. Here you'll find tranquillity, rugged and unspoilt nature and vibrant culture, from summer theatre to concerts and village markets, including Pertuntori Market. The culture of Mäntyharju is rooted in a rich history: in song, fine arts and an active civil society. The events of Mäntyharju's 430th anniversary are experiences to be felt in this moment. You can still hear the stories sung by the roads when you turn off the highway. Turn off the national road 5 to Mäntyharju or step into nature from the railway station!

Puumala – the pearl of Saimaa

Have you ever seen a ringed seal? In Puumala, it's almost guaranteed in May - but we do offer you an outstanding landscape with 100% certainty. Puumala's cycling routes are an unforgettable experience for both pushbikers and motorcyclists. You can rent a bicycle or an electric bike ("easycle") locally, and it's easy to jump from the saddle to the waterways in a rented canoe or kayak. The award-winning and easily accessible Norppapolku Trail offers three great circular trails and Saimaa Geopark sites on a 13 km hiking route. Winter holiday makers can look forward to quality cottages, Saimaa Gastronomy Weekends, which have been awarded the best in Finland, sauna and yoga days, and Saimaa dressed in winter clothes. Don't forget to check out Puumala's calendar of events!
